LA FORTALEZA
SAN JUAN, PUERTO RICO**

Administrative Bulletin Number: OE-2020-051

EXECUTIVE ORDER OF THE GOVERNOR OF PUERTO RICO, HON. WANDA VÁZQUEZ-GARCED, TO CREATE THE PUERTO RICO INTERNATIONAL CARGO AND PASSENGER TRANSFER MARKETING, PROMOTION, STRATEGY, AND LOGISTICS COMMITTEE.

WHEREAS: The Government of Puerto Rico remains committed to promoting the Island's economic development and maximizing all its economic sectors, components, and opportunities in order to create new jobs, retain existing jobs, and promote general wellbeing. In this regard, this Administration has emphasized the need to develop, seek, and secure all the programs, assistance, and benefits available to Puerto Rico, both within and outside our territorial limits, in order to strengthen Puerto Rico's position as a competitive player in international trade. The ultimate goal of the Government of Puerto Rico is to ensure a stable, sustained, and constantly growing and innovating economic development to, thereby, promote an active and healthy economy that will benefit all Puerto Ricans.

WHEREAS: On June 7, 2019, the Government of Puerto Rico, through the Department of Economic Development and Commerce ("DDEC," for its Spanish acronym), filed an application to the United States Department of Transportation ("USDOT") to expand international cargo and passenger transfer activities at several airports in Puerto Rico through administrative procedures, pursuant to the provisions of 49 U.S.C. §40109(c).

WHEREAS: On February 19, 2020, the USDOT issued Order No. 2020-2-12, requesting interested parties to show cause why the USDOT should not grant foreign air carriers an exemption for a two (2)-year term to expand their cargo and/or passenger transfer activities at several international Puerto Rican airports.

WHEREAS: On April 29, 2020, the USDOT issued Order No. 2020-4-10 and a final determination granting an exemption to foreign carriers for a two (2)-year term to expand international cargo and/or passenger transfer services at the following international airports in Puerto Rico: (1) Mercedita Airport in the Municipality of Ponce; (2) Rafael Hernández Airport in the Municipality of Aguadilla; and (3) Luis Muñoz Marín Airport in the Municipality of Carolina.

WHEREAS: The exemption obtained from the USDOT is an extremely important event that should not be underestimated since, as compared to the

State of Alaska and the Mariana Islands and Guam territories, which have only been granted air cargo exemption, Puerto Rico is the only U.S. territory with an exemption applicable to international air cargo and passenger transfer.

WHEREAS:

Order No. 2020-4-10 allows cargo and/or passenger airlines to:

(1) transfer cargo and passengers from any of their aircraft to any of their other aircraft in Puerto Rico, provided that both aircraft are operating to/from a point in the carrier's homeland.

(2) make changes, at Puerto Rico international airports, in the type or number of aircraft used to transport cargo and passengers, provided that: (a) in the outbound direction, the transportation beyond Puerto Rico is a continuation of the transportation from the carrier's homeland to Puerto Rico, and (b) in the inbound direction, the transportation to the carrier's homeland is a continuation of the transportation from behind Puerto Rico;

(3) commingle cargo and passenger traffic moving in foreign air transportation with domestic cargo and passenger traffic.

(4) discharge cargo and/or passenger traffic at Puerto Rico international airports for transfer to a U.S. carrier for onward carriage to a final destination in the United States or in a third country.

(5) uplift from Puerto Rico cargo and passenger traffic transferred from a U.S. carrier that was transported by that carrier to Puerto Rico from a point of origin elsewhere in the United States or in a third country.

(6) discharge passengers and cargo at Puerto Rico international airports for transfer to another foreign carrier for onward carriage to a final destination in a third country; and

(7) uplift from Puerto Rico international airports passengers and cargo transferred from another foreign carrier that was transported by that carrier to Puerto Rico from a point of origin in a third country.

WHEREAS:

The activities described above may: (1) increase air traffic volume by at least seventeen percent (17%) and, as a corollary, may increase trade in general; (2) generate at least six thousand (6,000) new direct and indirect jobs during the two (2)-year exemption term, (3) attract approximately two hundred eighty-nine thousand six hundred three (289,603) new passengers; and (4) have a \$219.3 million economic impact.

WHEREAS:

The aforementioned exemption will help the Government of Puerto

Rico to: (a) promote the development and rehabilitation of warehouses on the Island, (b) encourage the arrival of new cargo and passenger air carriers; (c) promoting the logistics, customer service, packaging, and re-packaging industry; (d) increase the demand for ground transportation services; (e) give a boost to the aircraft maintenance, repair, and overhaul (MRO) sector; (f) increase aviation fuel sales; (g) promote the public policy to attract specialized manufacturing and pharmaceutical companies so that they can enjoy the benefits outlined above; and (h) increase export opportunities, among many other possibilities.

WHEREAS:

Puerto Rico offers endless attributes and advantages that will allow us to achieve a rapid growth in the transport and cargo industry sector, specifically: (1) a perfect geographic location; (2) airport infrastructure with expansion potential; (3) geographic location within existing routes with high growth potential; and (4) a favorable position to take advantage of new global air transport trends, among other advantages.
