

# Job description

## Accounting Technology Consultant

Are you looking for new challenges in your professional career? We offer an alternative career in the accounting field, Accounting Technology Consultants

### ***Who we are?***

#### *In summary...*

Fusionworks is a fast-growing business and technology consulting company based in San Juan, Puerto Rico. We help companies leverage business applications to be GREAT! Accounting professionals think their only career options are auditing, taxes or corporate accounting. There is an alternative for those out there that are more forward looking and rather design the future and know how to leverage technology in their daily lives. As a Fusionworker you will help companies be more efficient and wiser by helping them adopt state of the art technologies from companies like Oracle, Microsoft, Prophix among others.

As such, you will help us achieve our mission which is to transform the business landscape of the markets we operate in by helping organizations become more efficient, wise, and therefore competitive.

#### *What sets us apart...Fusionworkers are*

- Good people with a service-first state of mind
- Passionate about productivity and information
- Entrepreneurial spirit and highly competitive
- Global state of mind
- Promoters of change and innovation
- Enthusiastic about learning and knowledge

Does being a FUSIONWORKER is something that motivates you? We want to meet you!!!

#### ***We are looking for an Accounting Technology Consultant who:***

- Participates in all aspects of the implementation solution from the analysis of business requirements to the configuration of applications to meet the customer's needs.
- Develops a plan that aligns with customers' goals and objectives.

- Analyzes operational processes and determines the gap between the client's requirements/specifications and the standard functionalities of the proposed solutions.
- Collaborates with project leaders and the implementation team to ensure understanding of the set-up requirements, business-aligned objectives, and obtains a complete understanding of the current business processes.
- Supports the customer with the transition to the new system.
- Supports the solutions configuration, including: Defining roles and authorizations; Creating users and assigning the roles; Defining process and adapt workflows, Design and Build Dashboards and Reports among others.

***Job requirements...***

- Bachelor's degree in Accounting, Finance, or other related fields.
- 2+ years of experience in Accounting or Finance.
- Knowledge of Accounting Full Cycle.
- Knowledge in Microsoft Office (Excel, Word, and PowerPoint).
- Excellent communications skills.
- Customer services skills.
